ABOUT AJMAN

The smallest of the seven United Arab Emirates, Ajman has an area around 260 square kilometres. Along with bordering Sharjah and well-known Dubai (just 25 kilometres from the resort), Ajman is part of a long, coastal metropolis. Itself formed around a natural harbour, its location grants easy access not only to the airports of the two neighbouring cities, but also to the ports of additional neighbouring emirates.

AJMAN SARAY, A LUXURY COLLECTION RESORT

Nestled near the turquoise waters of the Arabian Gulf where white sandy beaches dazzle in the sun, Ajman Saray is the first beach-side Luxury Collection Resort in the Middle East. Located on a natural stretch of Ajman coast and just a short drive from major International airports and the Emirates of Dubai, Sharjah and Umm Al Quwain, the resort offers an enchanting coastal sanctuary for weekend breaks and beach escapes off the beaten track.
